

Kindergarten and Maternal Health Centre - Langwarrin Community Centre Site-

As many of you may be aware, it has been approved by Frankston City Council to add a 90 place Kindergarten and Maternal Health Centre to the Langwarrin Community Centre(LCC) site. This has been done with the support of the LCC Committee of Management.

This change will not happen for 18 months to 2 years.

Our Occasional Care and Outside of School Hours Care for ST Jude's students will be operating as normal until the construction commences, and will continue to do so throughout and after the process, although some disruption may occur during that time.

We will keep you updated over the next 12 – 18months and advise of any changes that may be occurring.

Please rest assured that our Childcare services remain unchanged and we are still able to operate our programs as usual.

If you have any questions or concerns please contact our reception staff or myself directly at any time,

Kind regards,

Jo Kiley (Tuesday - Friday)
Manager
