

Sun Smart information – Educator/Family Communication

Dear Occasional Care and Pre-Kinder families, please carefully read the information below in relation to outside play.

Required for outside play:

- Wide brim or legionnaires hats, no caps
- Dresses/tops must cover shoulders (t-shirts can be put over a strappy top for outside play)
- Footwear must be closed in toe shoes/sandals (No Thongs)
- We request that children have sunscreen applied before they are signed into the session
- Sunscreen will be re-applied by educators 20 minutes before going outside, then every two hours
- Children in Pre-kinder will be encouraged to apply their own sunscreen with Educators monitoring and assisting them
- Sunscreen supplied by Centre is Coles Ultra Sunscreen SPF 50+ or equivalent
- If your child has allergies or you would prefer a different brand, we ask that you please supply this with your child's name on it and advise the Educators that it will be in their bag

How to apply – tissues, gloves, one per child, handwashing between each child if sunscreen is applied by hand.

Sun protection is used when UV is 3 and above, regardless of the date and time of year (i.e. not just in terms 1 & 4).

When should children not be outside?

- At Educators discretion if UV index is 3 and above while adhering to Centre Sun Smart Policy

Please retain a copy of this information for your reference.

Thank you so much for your cooperation,

Kind regards,

Langwarrin Community Centre Inc.
